

Storys, The "Be By Your Side"

Only you can save me
Only you can save me from the storm
Hiding in the shadow
Hiding from the sun for being born
Jealous fascination
When I hear you lock the bedroom door
Together in a vision
Hear you come passing through these walls

[Chorus]

I'll be by your side
I'll be by your side
I'll be by your side
I'll be by your side

This is only natural
The way that I should want you too
It's mutual attraction
Written in the blood that's passing through

Chorus

When the leaves are falling
He'll be locked in someone else's room
You will never be empty
Cos I will be inside of you
