As we sail through this ocean
That was filled with our own tears
All these twisted emotions
That we build from our own fears

[Chorus]

Yeah I believe in love
'Cos love is all we have
It guides us to dry land
Yeah I believe in hope
'Cos hope is all we got
When everything is lost
Yeah everything is lost

Baby try not to breakdown
Don't you let him take your dreams away
You can rise above these soul cages
Put back that pretty smile he erased

Chorus

She remembers the first time
He held her close as the tears ran dry
As she looked down at the bloody water
She saw the child but the child had died

Chorus
