Take me far away
Far away
Take us both today
Before we break

Forever changing faces
Whatever gets you free
I just can't go on with this uncertainty
What will bring us face to face
What in me would you replace
If I could fully show you I believe

Take me far away
Far away
Take us both today
Before we break
Take me far away
Need a change to make
All I need to say
We won't break

Forever meet your promise
You won't let me down
Want you in my life
But now you can't be found
Wish you knew how hard I've tried
To be near you all the time
I guess you forget but you won't forgive
Forgive

Take me far away
Far away
Take us both today
Before we break
Listen to the sound
Everyone around
The future on the ground
We won't break
Take me far away
Need a change to make
All I need to say
We won't break (x3)
