Friday nights for disappearing  
For loving on someone you don't need  
And if I forget my name just re-write it all  
Friday nights for disappearing  
Nobody ever holds the hand they're here with  
Cause you look so good just hanging on my wall

### CHORUS

And I know all about the quick fix remedies  
Do it yourself- bathroom surgeries  
young lovers nervous livers  
it's sweet teen heartbeats, sad songs repeat  
And I know all about the quick fix remedies  
Do it yourself- bathroom surgeries  
Young lovers, nervous livers  
To be young

You did it, you loved it, you did it some more  
And now I, I don't wanna remember  
It's just a chapter, a lesson, a blessing withheld  
As we throw away the past together  
Cause we were never, no never, what anyone wanted  
So it's better, you better just stop being honest  
Can we do it like we did it, like we did it before?  
I never said this would be easy but we still want more

### Chorus

Pillow talk won't make me believe  
Your back beat backseat apologies  
Save 'em when I'm sleeping sound  
We spent our money livin good six feet down  
Sold and scrapped for spare parts hearts  
Do you remember how we looked so good in the dark?  
I put my hands in the water, washed you out of my skin  
Well I don't wanna be remembered for what I couldn't  
give

### Chorus
