If you feel, like giving up now
Life has got you down
If you feel like, living it up now
Don't be scared, I'm always round

If you ever feel like, making something come out of
nothing
Give me a call and tonight we'll do something
We're not running away now

Enough is Enough, it's never Enough
Enough is Enough, it's never Enough

If you feel, like time's been wasted,
Life has got you down.
Don't be scared to give me a phone
You know I'm always round

If you ever feel like, make something come out of
nothing
Give me a call and tonight we'll do something
We're not running away now.

Enough is Enough, it's never Enough
Enough is Enough, it's never Enough

Enough is Enough, it's never Enough
Enough is Enough, it's never Enough
