Five seconds you destroy and then you pray
You've cut yourself and then you call
I am the one that gives you hope
I am the drug that eats you whole
Twelve months I gave myself to you
I lived my live inside of you,
Couldn't see that I was fooled again
But there was one thing, it was you
Go your way,
'cause what if all....
what if all this isn't true?
Go your way,
'cause what if all....
what if all this isn't true?
Five seconds you destroy and then you pray
You've cut yourself and then you call
I am the one that gives you hope
I am the drug that eats you whole
Go your way,
'cause what if all....
what if all this isn't true?
Go your way,
'cause what if all....
what if all this isn't true
