Brace yourselves and close your eyes
Close your eyes or I will
Never leave your summertown
Your precious heaven is burning down, oh yeah
I will come and hunt your lives
You're wanted by a million tribes
And don't you think that I wouldn't try
'cause the further you will fall towards
the demons you have liked
walk away from the pain
leave before I loose my mind
there's no time, no time to hide
your precious heaven is burning down
I will come and hunt your lives
You're wanted by a million tribes
And don't you think that I wouldn't try
'cause the further you will fall towards
the demons you have liked
I would die for this
'cause I know I will not forgive (not this time)
I will come and hunt your lives
You're wanted by a million tribes
And don't you think that I wouldn't try
'cause the further you will fall towards
the demons you have liked
