Lighthouse tall and grand
Standing on a cold headland
Shine your light across the sea
for a wayward sailor girl like me

Lighthouse man
Guide the sailor back to land
Steer my ship on through the storm
Back to water safe and calm

Sometimes I need a lighthouse for my own
It gets so dark I can't see which way I'm going, ohh
Lighthouse man I'm all at sea
Shine a little lighthouse light on me
Lighthouse man I'm all at sea
Shine a little lighthouse light on me

Lighthouse man can't help us all
Some are saved and some will fall
He'll show you where the danger lies
But he can't help if you capsize
Cause He'll light your way but that is all
Steer your own ship back to shore

Won't you light my lonely way back home
This sea is full of misery and woe, ohh ohh
Woe betide those that say
They don't need no light to light their way
They think they're safe enough on their own
Drown in murky depths below

We all need a lighthouse for our own
It gets so dark I can't see which way I'm going, ohh ohh
Lighthouse man I'm all at sea
Shine a little lighthouse light on me
Lighthouse man I'm all at sea
Shine a little lighthouse light on me
Lighthouse man I'm all at sea
Shine a little lighthouse light on me
Lighthouse man I'm all at sea
Shine a little lighthouse light on me
