

## Waifs, The "Without You"

I've been looking out for number one  
I've been stepping out with my friends  
I don't have to justify what I have done  
I don't have to answer to anyone

I put my body on the line  
Take a step out of my mind  
Life takes on a different view without you

I feel energized like I was young  
I have not felt this way since we began  
I re-evaluate my future plan  
Time to free myself from your command

There's no need to compromise  
I'll do whatever I decide  
no one else to spoil the view - without you

I don't care if I ever touch the sun  
I don't care if the whole thing comes undone  
Everyday to me is a surprise  
I don't care if it leads to my demise

No restrictions now I'm free  
No black clouds hanging over me  
I think I like this view without you
