She's a vampire
she sleeps in the daytime
had a long night out making a killing
but she has to
just to stay alive

she walks with you
but its more like gliding
and her eyes are so inviting
but she'll kill you
just to stay alive

and you'll fall in love with her
as she's dancing
but she's sick and tired with romancing
cause she'll kill you
without saying goodbye

she's a vampire
she sleeps in the daytime
had a long night out making a killing
but she has to
just to stay alive

you think you can take it
but you know its worth fighting
many think that maybe she's lying
and won't kill you
and its worth a try

see the thing
she's just like you and me
sucking off the american dream
and she kills you with her pleasant smile

she's a vampire
she sleeps in the daytime
had a long night out making a killing
but she has to
just to stay alive

she's a vampire
she sleeps in the daytime
had a long night out making a killing
but she has to
just to stay alive
