I love the way  
The tattered clouds  
Go wind across the sky

As summer goes  
And leave me  
With a tear in my eye

I'm taking out my winter clothes  
My garden knows what's wrong  
The petals of my favorite rose  
Be in the shadows dark and long

Through every year  
It's very clear  
I should be used  
To carrying on  
But I can't be found  
IN the garden  
Singing this song

When the last  
Rose of summer is gone
