

Streets, The "Ghost Town"

This town
Is going like a ghost town.

All the clubs are being closed down.

This Place
Is coming like a ghost town.

Bands won't play no more,
To much fighting on the dance floor.

Do you remember the good old days before the ghost
town?
We danced and sang as the music played in any
boomtown.

This town is going like a ghost town.
Why must the youth fight against themselves?
Government leaving the youth on the shelf.

This place is coming like a ghost town.
No job to be found in this country.
Can't go on no more.
People getting angry.
