It's time to go low, It's time to go low
Is this space where my heart has been?
It's time to go low, It's time to go low
Is this space where my heart has been?

Don't give them what they think they want just give
them what they need
I don't wanna want what I want but I know that your
heart bleeds

It's time to go low, It's time to go low
Is this space where my heart has been?

From my heart that is defective passed my bark that
says I'm weak
I never parked on art for sex, I parked with what's
effected
part of that is what is gone before, shards of my own
law
shattered so they can't say I ever parked up for the
score
I make music that's what I'll do with it, we'll hang
together ruefully
but to a ruthless melody I'll hang these boots on me
I ran with the best but panned on the test that is for yes
And when the lights go out we run the plight that we're
about
Don't give them what they think they want just give
them what they need
I don't wanna want what I want but I know that your
heart bleeds
We all happen to hang our heads here, I lost sight of
that fact in fear

Is this space where my heart has been?

Don't underestimate me friends, we don't know who's
ahead til the end
I might spend all day with it and then pan the night
away and make
nil and none and nan, so Jill and John and Jen can kill

and con with Ken
for their fill and fun with friends
For all your pills and pons and penny I'm still stunned
but sunny
over the hill - honey, anyway you've willed it one
but when will it spill what we spon and span
I have skill with skunk and skanks
We still not act ABEND - don't underestimate me friend
Didn't I make it easy, didn't I make it free
loyalty is free when all the people see the dream
I've started so I finished even if the start is the
beginning,
they aren't in this, they partied willing

It's time to go low, It's time to go low
Is this space where my heart has been?
It's time to go low, It's time to go low
Is this space where my heart has been?

Don't give them what they think they want just give
them what they need
I don't wanna want what I want but I know that your
heart bleeds
Take your flunky and dangle, fake your funk and
handle it
I make funk on any angle, and get some kind of age
old fangul
time put down can be irrelevant of gain
that's the element of pain - for the blessing of the
game
I might spend all day praying - panning every kind of
way
tapping the pencil henceforth - forever in a day
and suffer for nothing - that's the glough - I fucking
love it bruv
what goes in don't come out, joke jump in a shout

It's time to go low, It's time to go low
Is this space where my heart has been?
It's time to go low, It's time to go low
Is this space where my heart has been?

You and me forever walking

It's time to go low, It's time to go low
Is this space where my heart has been?
It's time to go low, It's time to go low
Is this space where my heart has been?
