Microphone check 1-2
Z-ro the crooked in the building
Y'all know me
But I'd like to introduce to you
A friend of mine
We go way way way way back
Rother Vandross
So if you will, if you please

Sittin' in the courtroom, waitin' on the outcome
Prosecutor dont want me to go back to my house huh
Right here, right now he wanna lock me up
He probly wish another negro brother would've shot me
up
And he don't even know me, He just know what he read
But as long as Jesus didn't write it then he might be
mised
Even if he know I'm a good person he would still be
giving
Innocence and guilt dont matter
He tryin' to get a conviction
Day before yesterday I saw a child get 40 years
Time gets passed out like candy and single mothers
shed tears
Me, myself, I'm facing 2 to 20, messed up huh?
Going to trial for something I got a prescription for
No attempted murder, no aggravated assaults,
Never ran away from no police, didn't have to be
caught,
And before I'll BEAT on a woman I'll make my exit
The quickest way to get a 5 year sentence down in
Texas
I walk the straight and narrow though at times I fall off
But I aint done nothing to nobody so call the dogs off
My auntie something like a doctor
She prescribed ISIAH 54:17
No weapon formed against thee shall prosper
And I believe it too cuz I've been in some tight spots
No matter what I was facin' Jesus was always in the
right spot
Now I can't put my hands on him but I can touch him

And when he touch me back he say gangsta don't
worry 'bout nothing

'Cause you and me
And me leaving you alone can never be
Even if I'm facing an army
Ain't no way they can harm me
I'm a stone
I gotta go through it a little while
But not for long
'Cause pretty soon I'll be home
Then I won't have to look for heaven and I'll wonder no
more
Baby mama drama, and fake ass friends
And jealousy and envy, it done all come to an end

'Cause finally I'm in heaven
How ya doin' mama?
I haven't seen you in such a long time,
Grandma betsy too,
And DJ screw,
H.A.W.K and BIG MOE
and P A T and the whole S U C

When I'm asleep or while I'm out on my grind
I dream of heaven, heaven
When I'm facing the worst of times
I can still feel heaven, heaven
