I am, the type of nigga that brang his pistol in the club  
I am, the type of nigga your baby daddy wish he would  
I am, the type of nigga that don't know how to give a  
fuck

The type of nigga that will tear the whole club, fuck the  
whole club

Fuck a state trooper, fuck a cero, fuck a seargant and  
fuck a deputy  
And fuck the police, I be dealing that chillin  
Till it ain't no more breath left in me  
One beef for life until the casket closes  
If I ain't ready kick my casket open  
Y'all heard what I said, I'm back from the dead  
They killed me last night but I'm here this morning  
These niggas ain't gonn hold me back  
These niggas they hold me stacks  
Hear that nigga the same weather  
Chop em down fast slippin, leave em like that  
I'm that nigga, ad nigga, like what the fuck is backing  
down  
I come down this block and I know this uzzi be loaded  
Bitch I'm gonna be back around

[Hook]

I'm alive, I'm alive  
The way they try to murder me is like a 9 to 5  
But I'm alive, I'm alive  
The reverend is a gangster, we got weapons in them  
choir  
I'm alive, I'm alive  
If we ever go to war you better hope you on my side  
Run up if you want to, I'm gonna hit you with that iron  
No weapon by, can see what you have on your mind

Listen, these rappers said they got love for me  
But I'm knowing they really hate me though  
They be like I'ma get rollin through the hood  
But if I let them do a verse, he gonna take the show  
And that's a no no, he ain't stealing my shine  
But how the fuck he 35 and he still in his prime

I ain't never been a yig, I started off as a og in this  
motherfucker  
And I never heard what's your name  
Cause everybody know me in this motherfucker  
It ain't just no rap, I really be where the coke be  
In this motherfucker  
Try to rob me, bitch I'ma shoot your lights out  
I'm kobe in this motherfucker  
I murder this microphone and put your pro tools in the  
trunk holes  
Styrofoam at the styrophone, and I'm smokin like a  
...  
Go hard on the mike's not hard, I accidentally give  
me a broke nose  
I'm a vicodin cold cane ...your favorite rapper is a no  
goes
