[Chorus x2]

It's gonna be alright

Keep your head up to the sky

[Z-Ro] Cause everything's gon' be alright

[Z-Ro]

Too many problems in my life I find myself unable to maintain

The nigga that was takin over my brain

Redesignin my main frame

Developin so much hatred I feel like fuck all of y'all

And for the slightest disrespect I would gladly touch all of y'all

Dedicated to doing bad and addicted to drama

People think I'm missin manners and home training but

I'm just missin my momma

It's like I don't fit in this bullshit world

Surrounded by bullshit boys and bullshit bitches

that'll murder they own people for a come up

And that's why I be mean muggin every son of a bitch that walk or run up

I'm paranoid my nigga, I keep one in the chamber

Willing to trade my freedom for life and live among strangers

My goal is to become one hundred and ten years old

I found myself but I can't grow until I find my soul

Stuck on 25 but hopefully I'll survive, I'll make it

Receiving hard pain from L.O.V.E., but I'll take it

[Chorus x2]

[Z-Ro]

Dear Dorthy I know you looking at ya son from heaven

Totally peaceful as can be, with out drugs, and weapons

Wish I could open up the pearly gates and see your face

But I gotta sinful life momma and I might not get to see that place

I just can't keep my cool, mother fuckers be pressin the wrong button.

I pull out my Jimmy Bone switchblade and start guttin'

Nigga you aint never known pain, you don't want this in

your jugular vein  
Rusted blades make gan green spread like  
mayonnaise mayne  
I can't think of nothin' that make me feel like that dro  
Not even a woman, cause as quick as she comes she  
out the do'  
Can't put my trustin in Eve, cause she got tricks up her  
sleeve  
All I wanna do is living til I'm D.E.A.D.  
Of natural causes I don't need nobody knockin' me off  
Just let me fall bitch get out the way you blockin' me off  
Stuck in the same spot but hopefully I'll survive, I'll  
make it  
Disrespected by the people I love, but I'll take it

[Chorus x3]
