Stepped off the back porch
What do you think I saw?
All pink and green
Rusting all night long

Cadillac front end
Fat fenders that never end

Looking thru that window
Is like looking back in time
Looking thru that window
Is like looking back in time

Cadillac front end
Fat fenders that never end

Cadillac
Won't you carry me back
Cadillac
Won't you carry me back
Cadillac
Won't you carry me back
Cadillac
To 1952

Sitting at the wheel
My sweetheart by my side
Hopping town to town in a psychedelic ride

Cadillac front end
Fat fenders that never end
