So where do I start,
When everything ends with you,
Everything ends with universe.
Comes the meaning,
I'm sorry,
I can start,
Start over again.
You know I wouldn't let you down.
You know I wouldn't let you go,
When you're all that I have left in me.

'Cause we can get around it.
Dedicate and surround it
To ease your pain away.

I'll taste you down.
I'm breaking off this
To diffuse the sound.
I'll wait for you to come around.
Is this serious,
Is this serious now?

Come over the hill.
The trees were on fire,
The sky was an envelope,
And you were the seal.
The flames dancing higher,
A black sky inspired.
A malicious attack of flames on glue.
We cried out, "What can we do?"
Two doves rise above the flames.
Innocence conquers and justice refrains.

'Cause we can get around it.
Dedicate and surround it
To ease your pain away.

I'll taste you down.
I'm breaking off this
To diffuse the sound.
I'll wait for you to come around.

Is this serious,
Is this serious now?

Out where we lose control,
That's where, that's where I'll find that.
That sense of rock and roll.
Who knows, you might come crawling back.
You can't pay a killer
'Cause a killer kills for free.
And you can't kill the devil,
'Cause the devil is a lady
With her attention on me.

I'll taste you down.
I'm breaking off this
To diffuse the sound.
I'll wait for you to come around.
Is this serious,
Is this serious now?
