### "Spend The Night Together"

Visit "[Spend The Night Together](#)" on [MotoLyrics.com](https://MotoLyrics.com)

It's your hands  
that will make it happen  
It's your lips that will make me smile  
It's your sounds that will sooth me  
through nights of happiness  
when I've been inside of you  
Now I know you long for me  
You know I saved my sould for thee

-Chorus-

Let's spend the night together  
Lovin' is for two  
Look into my baby's eyes  
Let's spend the night together  
Lovin' is for you  
Look into my baby's eyes  
By your smile I can see  
you found heaven  
and only missing it made you cry  
but your mem'ries will sooth you  
through nights of loneliness  
just by touching yourself

good night

While your beauty tears me apart

we'll make love

to the beatings of our hearts

Chorus

No one know

what it will lead you through

Maybe longer or a year or two

That's the fear, that we will say

good bye

It's my love that's gonna get you high
