Ive got something to tell you  
About my heart,  
That you hold.....ahum

If you're down well there's someone there...ah ah  
don't you know.....ahum

Well you know there's a place  
Way down deep  
Where I hide  
Im in trouble.....ahum

it's a garden I keep  
You don't know  
You can't find  
Im in trouble.....ahum

I hold you close  
You turn away

You know what I want to say

After this love  
After the rain  
After our rivers run

you'll fill my eyes  
With silver rays  
And with a golden sun

Im still here  
Unafraid  
If you don't come  
Oh, Im in trouble.

What do you think about me?  
What do you think about me?

Well you know part of me is  
Deep in you  
You don't want

All my trouble.....ahum

Wont walk out  
I want to stay

I'd light up your heart  
If I found the way

After this love  
After the rain  
After our rivers meet

you'll fill my eyes  
With silver curves  
And golden memories

Im still here  
Unafraid  
Wont you please come

After this love  
After this crying  
After the stars all fall

you'll fill my eyes  
With tears of joy  
Well laugh about it all

Im still here  
Unafraid  
If you don't come

Oh no no, Im in trouble.....ahum
