Nowhere to go on this hot afternoon turn on the fan lay  
down in my room

I cant believe in this town i'm still here  
no lover in sight, the mirage disapppears

Turn down the misic turn down the bed  
cause the drink I had this morning, went straight to my  
head, and I feel like a dream

Chorus -

Baby im a real steal Half price looking for a deal ?  
I'm golden all around, golden all around

2) In the middle of infinity in the heart of your eyes  
I see 100 angels living 100 lives

In the dark of the night when you're alone in your bed  
Do you ever think of me, am I a ghost in your head

Chorus -

cause...baby

Golden all around golden all around->

Bridge - round, all around, all around

3) Found a park in the middle of town flat on my back  
no one around

The sky grew dark and the sun disappeared and down  
came rain of sweet lovers tears

Hitched a ride south of eden with a dog dusty and  
beaten

speed so fast spinning in my head, and he turned to  
me and said...

Chorus -

...he said, Baby i'm a real steal

Half price looking for a deal

I'm golden all around, golden all around...2x

golden all around

golden all around
