Come on and cleanse my soul, now
Oh, I have to feel it
C'mon and be my baby
I think you are the last of a kind, yeah

I will tell you anything
And I will take you anywhere you want
C'mon and be my baby
I think you are the last of a kind, yeah

Why do they stare at me for?
Do I have a special glow when I dance?
C'mon and be my baby
You know I am the last of a kind, yeah

I'm left outside now
And it will take more than this to get in
C'mon and be my baby
I think we are the last of a kind, yeah

C'mon and dance a little closer
I want you to taste the salt in my sweat
Be my baby
You know we are the last of a kind, yeah

I can't shake this desperation
I don't want to feel like this anymore
So be my baby
I think we are the last of a kind, yeah

Desperation!

I knew it
I'm gonna have to tell you
My darling desperation
Let me go
