"Never Die"

Visit "[Never Die](#)" on MotoLyrics.com

There is so much frustration in me
But I do know that I can feel love
That dying feeling inside, baby
I've got no one to take it out on

We've talked about the future
So many drunken nights
We thought we had it together
And what we had would never die
If you think of me as shallow
I'm gonna show you that I really care
Help me to recover
From the fact that you're not here

I'll suck the poison out of your arms
Just so I can spit it back in your face
Still there is so much frustration in me, baby
Who is gonna hold me together and hold on?

We have talked about the future
So many drunken nights
We thought we had it together
And what we had would never die
If you think of me as shallow
I'm gonna show you that I really care
Help me to recover
From the fact that you're not here

Here I am, on my knees
With all this shit burying me
In my dreams my lovers cry
They've trusted me despite all my lies
Dead on straight, move to fast
I'm doing fine but I'm bound to crash
When I do, lay me on ice
I knew somebody had to pay the price

We've talked about the future
So many drunken nights
We thought we had it together
And what we had would never die

If you think of me as shallow
I'm gonna show you that I really care
Help me to recover
From the fact that you're not here
