You've chosen me, oh no
When it happens
I've chosen you, I don't know
When it happens

Changes my life to a love song
This love is so strong
You've chosen me
And now that I, I've

I've chosen you
Oh, oh, my love
Let it happen
Changing my life to a love song

Changing my life to a love song
This road is so long
I'm a runaway train going off the rails
My love is so strong

I don't know why, if you
You've chosen me
Oh, pass my way
If it happens
