Best friend

I'll see you in the end

been broken for a while

but maybe we can mend

best friend

I'm feeling all alone

and filling up my time again

I'll see you in the end

I will again

best friend

I'm really up again

the word isn't known...

but bitter to the end

best friend

I'm really high again

and figuring out my

head

ooh when

I see you in the end

I will again
