Seen everything I could think
think every think I could think
heard every word without listening
I'm a dick
want what I already know
know everything that was true
seen everything I could see
I'm everything I could be
I'm a dick
waiting to be kicked
read everything I could read
have everything I could need
seen everything I could see
I'm everything I could be
I'm a dick
waiting to be kicked
I'm a dick
waiting to be kicked
