If you just try  
telling me why  
wise and old  
still I know the sun  
and built cities  
where the rivers run  
telling me why  
if you just try  
just try  
telling me why  
if you just try  
Aleca said what a shame, dead  
she was a good head  
oh now that she died  
well I swear  
if she would've tried  
Aleca said what a shame, dead  
she was a good head  
oh now that she died  
well I swear
