There's a film at the cinema
And people go in pairs.
They show it at night
And some people get scared.
And once you're inside
They lock all the doors.
And the seats are all empty
And there's blood on the floor.

(chorus)

It's a Zyklon B-Movie.
Straight out of the past.
It's a Zyklon B-Movie
And it could be your last.
And there's a nine-year old girl
Who came for a scream.
She's screaming all night
And it isn't a dream.

This is just the support film
To get you warmed up.
But it's quite the reverse
Because it freezes your blood.

(chorus)

And the gas rises up
From under the chairs.
This film is so lifelike.
It feels like you're there.
It's a Zyklon B-Movie.
Certificate X.
If this was the first film
Then what could come next?
It's a Zyklon B-Movie.
Certificate Z.
The Z is for Zyklon.
And the people are dead dead dead dead dead.
