For each forgotten kiss  
For all the memories  
For all the times a look  
Said all we had to say

You played your part so well  
A modern Romeo  
You came on Cupid's wings  
And then you flew away

When you touched my face  
When you called my name  
I burned with desire

When you touched my face  
When you called my name  
I burned with desire  
But you left me in the rain

For every sleepless night  
Forever in your arms  
For every hour spent  
Lost in the reverie

You broke your promises  
No shame and no regrets

You burned the bridges too  
An endless mystery

When you touched my face  
So beautiful  
When you called my name  
My name..  
I burned with desire

When you touched my face  
So beautiful  
When you called my name  
My name..  
I burned with desire  
But you left me in the rain

When you touched my face  
So beautiful  
When you called my name  
My name..  
I burned with desire

When you touched my face  
When you called my name  
I burned with desire  
But you left me in the rain
