feat. Emma Hewitt

Said that you'll open your eyes and see I've found you
If you give me a reason I'll never will let you go
If I were to leave, if I were to always stay around you
I'll catch you, I'll catch you when you fall

If I could just stay a moment in your light
I'm never afraid if I'm within your sight
So don't you wait, hearts will come
And always we'll run
Time will change, us and all
Forever is ours again, again
Forever is ours again, again

You know I'll stay by you
You know I'll stay by you

I'll stay by you, forever

If I could just stay a moment in your light
I'm never afraid if I'm within your sight
These are the days I'll carry on with my life
Can I just stand here in your arms for now?

**

Forever is ours again
Forever is ours again, again
