"Just A Dream"

Are you climbing up the slippery pole
Falling deep in a hole
Are you lost in a exitless maze chasing impossible
ways
Are you running up a slippery hill
Are you going to spill
Cant you build a snowman in the desert are yo
U chasing an imagenary treasure
All single wonders are over the top
Can the make a cage strong enough to keep him
Mountains are enormous but they all have a top
Its up to someone with a dream to come and reach
them
Will love be yours or will it last
When the summer is past
When your alone your starin up at the moon
Is it staring at you?
Your lucky dime you didn't mean to spend
Will you, ever see it again
All single wonders are all over to top
Can they make a cage strong enough to keep him
Mountains are enormous but they all have a top
Its up to someone with a dream to come and reach
them

(kinda off so feel free to fix it this is just like a rough
draft i guess of it)
