

## Zug Izland "Everything"

Visit "[Everything](#)" on [MotoLyrics.com](https://MotoLyrics.com)

You've got your blind indecisions of all the things they  
say  
This is your life this time, live it how you may  
Give one man power to kill, and one man hands to heal  
Left one man suffering, all I want is everything

All I want is... All I want is. All I want is everything!

They've got the door wide open, won't you walk on in?  
We're going for a freak ride, won't you take a spin?  
Okay this will be the last chance, so now make it right  
If someone tries to stop you, stand your ground and  
fight

Give one man power to kill, and one man hands to heal  
Left one man suffering, all I want is everything

All I want is... All I want is. All I want is everything!

Everything. All I want. Everything. All I want. Everything.

Give one man power to kill, and one man hands to heal  
Give one man everything, still others left suffering  
The thrill of living, stay on the right path  
When death is calling, you can't take it all back  
Can't take it all back. Take it all back. Take it all back

Give one man power to kill, and one man hands to heal  
Left one man suffering, all I want is everything  
Give one man power to kill, and one man hands to heal  
Left one man suffering, all I want is everything

All I want. Everything. All I want. Everything. All I want is  
everything  
All I want. Everything. All I want. Everything. All I want is  
everything  
All I want. Everything. All I want. Everything. All I want is  
everything
