"Walk Away"

Visit "[Walk Away](#)" on MotoLyrics.com

Every time i walk away from you
I can feel my heart breaks in two
Every time i walk away from you
I can see the world turns to blue

Every time i fly away from here
I can feel your heart grows so near
And every time you smile
It makes my day

(?)

She took my soul away
She took my mind away
She took my heart away
She took my everything
No!

Every time you walk away from me
I remember how it used to be
And every time you walk away from me
(?)

She took my soul away
She took my mind away
She took my heart away
She took my everything
No!

Every time you walk away,
walk away, walk away
Every time you walk away,
walk away, walk away
Every time you walk away,
walk away, walk away
Every time you walk,
you walk, you walk away
