Ransom The Senator

We don't want a situation where the people dem a
suffer thru a senseless.. Revolution

Now we're dealing with the violence and they're killing
one another for the politicsÃ¢Â€Â¡ an illusion

They talk about peace while dividing all the people into
tribal affiliations

Only one thing left for the people of the area,
destruction... elimination

CHORUS

And so we Ransom the senator

Come mek we Ransom the senator

How many years of oppression and the innocent a
suffer? So we ransom the senator

From the election we don't know what we've got... The
difference with the have and have nots... So many
people a suffer on your watch and so we ransom the
senator

Liberate all souls from the practice of corruption hear
the youth cry inna one voice

Deliver us from the valley of the shadows of
destruction under gunpoint. You left us no choice

Preacher man have a Prayer for the sufferer

I and I pay a visit to de governor

Only one do the dirty work of all a them together, mek
we ransom de senator..

CHROUS

You mek we take matters in a fi we own hands.....
Thru sufferation I don't know how we live

Without protection and with no benefit

You bleed the nation, we got no more to give

And so we ransom the senator
Hear me now big it up fi de heathens question fi de in
de meeting of the minds of the global business

Gimme de price whe you put 'pon treason

You talk about peace and you think about war for de
benefit a capital gain

You find enemies and you make them fight from the
middle a political game
Question to de warlord general

Who make you feel presidential?

If so how many more people dead why not just you and
your cabinet
Who start with de first shot?

Who got all de people killing out nonstop? Not that fool
on the hilltop

No sir, It's the long term senator, idiot. Believe that
-Reprise-
Oppressor we identify

Put your hands up and keep them in sight

No more violence or bloodshed tonight

Listen up and you just might survive
From the beginning, and we don't know what we've
got... The difference with the have and have nots... So
many people a suffer on your watch and so we ransom
the senator

Well, Jah Jah Children. This is a bloodless revolution.
Blindfold the senator, shave his head, leave him in the
worst neighborhood. Let him feel how it is to live
without privilege for just one night.... and realize if
you don't change your ways, the right time Soon Come
