Baby me, baby, you know I've had a bad day

So baby me, baby, chase my cares away

Say I'm great and I'll make it though it may not quite be true

Baby me, baby, as only you can do

Hold me close, let those sweet lips kiss my wounds and make 'em right

Tomorrow will be better but just help me through tonight

Sweet baby, don't start cryin' or I'll start crying too

Baby me, baby, as only you can do

Hold me close, let those sweet lips kiss my wounds and make 'em right

Tomorrow will be better but just help me through tonight

Sweet baby, don't start cryin' or I'll start crying too

Baby me, baby, as only you can do

Just baby me, baby, as only you can do
