

## Waxing Poetics

### "Baby Jane"

Visit "[Baby Jane](#)" on [MotoLyrics.com](http://MotoLyrics.com)

time don't capture light just right  
it makes your face too long  
time don't capture light just right  
makes your name seem wrong  
but it's no big deal you say  
it's no big thing  
time don't capture love at all  
& love don't capture anything  
found out what happened to baby jane  
tried to take another photograph  
take it to the masses  
take it to the masses  
look what happened to baby jane  
look what happened to america  
look what happened to baby jane  
the same thing happened to america  
but it's no big thing you say  
it's no big deal  
time don't capture love at all  
& love don't change the way you feel  
found out what happened to baby jane

tried to take another photograph  
dress her up in plastic  
take it to the wasteland  
take it to the wasteland  
and it's no big deal you say  
it's no big thing  
time don't capture love at all  
& love don't capture anything  
found out what happened to baby jane  
tried to take another photograph  
take it all for granted  
take it all for granted
