

Submarines, The

"The Good Night"

Visit "[The Good Night](#)" on MotoLyrics.com

Without warning I'm here alone again
High in the basement
Wondering what you meant by goodbye
'Cause I stopped listening

Well, you've got a way with words
Just sentiment without revealing how you feel
Or if you plan to live without me now

Goodnight baby if you can hear me
How long has it been
Since you came looking and saw
Me as I really am

Well you've got away with words
Just sentiment without revealing how you feel
And if you plan to live without me now

Then I should look up and see if you're gone
No sense in pretending down here all alone
Well, how could I fall when I'm still underground
But I can't admit where we've gone wrong

And I've already heard the truth
And what you thought I couldn't know
You talk pretty to a girl
But somehow you're already on your own

Goodnight baby, goodnight baby

And you got a way with words
Just sentiment without revealing how you feel
And since you plan to live without me now
I'm on my own
