Close my eyes - see your reflection
in my life - you always are
now I know my true direction
cause I see your shining star
I'll never fall in love again
you are the one I need
eye to eye and face to face
hold me-
you don't have to go this way
hold me-
don't look back

been so lang - to get the reception
of your smile - i keep in view
I'll never fall in love again
you are the one i need
eye to eye and face to face
hold me-
you don't have to go this way
hold me-
don't look back
all your love and sweet affection
makes me feel so close to you
