diamond eyes, shiny black raven hair  
hypnotized, I could only stop and stare  
like an apparition she belongs to me  
I never saw a woman with such mystery  
I will never let you go  
cause follow  
light up my life  
remember me, remember you - oh lord  
voices through my head  
like a distance choir

i had never known  
such a lust for desire  
then again  
I was just a mortal man  
devil or angel  
what I wanted her to be  
I will never let you go  
cause I follow  
light up my life  
remember me, remember you - oh lord
