I live my life walking down this street  
I meet the faces of the people I see  
All the time I see your reflection  
All the time I see your reflection  
It's okay to feel alone  
It's okay to be alone  
All the time I see your reflection  
All the time I see your reflection

Cause when I'm with you  
It seems so easy  
It seems so easy  
My best days are with you  
They are so easy  
They are so easy

Yeah, I don't like giving up  
Cause giving up is easy  
And I'll see you again  
Just tell me where you'll meet me

When I'm with you  
It seems so easy  
It seems so easy  
My best days are with you  
They are so easy  
They are so easy, yeah!

When I'm with you  
It seems so easy  
It seems so easy  
My best days are with you  
They are so easy  
They are so easy, yeah!
