"Burning Myself Alive"

Strain, just strain
Never did I complain
Kept on going
when it got rough
Kept on fighting
when it got tough
Even when it felt I was just killin' myself
I kept on keeping on and destroyed me

Strain, just strain
Strain, just strain
Pain, just pain
Pain, just pain

Go, just go
Never did I stop
Kept on sliding
when I wore down
Kept on slipping
when I fell apart
Even when it felt I was burning myself alive
I put my soul away and found a place to die

Strain, just strain
Strain, just strain
Pain, just pain
Pain, just pain

Straining, through all the pain
Keep on going against the grain
