This time I really mean it  
No turning back around  
Putting away all my vices  
Putting all that stuff down  
Cold turkeys sounding harsh  
I'm up for a fight  
I'm not touching a single thing  
No way not tonight

Cleansing all my flaws

This time I'm for serious  
Not relapsing again  
I've seen my dark ages  
No going back to that pain  
Been going good for a while now  
I'm feeling alive  
Temptation reaches for me  
But on I fuckin strive

Cleansing all my flaws  
Cleansing all my flaws

Temptation reaches down in me  
Trys to break my strength  
But I got the will to go on  
Reaching my furthest length

Cleansing all my flaws  
Cleansing all my flaws
