Strong minded
But weak in force
At the gates
we ride the horse
Time draws
We make a plan
spread wings
here hand in hand

Believe in all the demons out to get you tonight
The Devil's watching us, you can see his eyes so bright

Pain burdened
riddled with holes
Carry on
with worn down souls
Downtrodden
are we now
Keep fighting
we'll win somehow ya know

WOAHHHH!!!!

Believe in all the demons out to get you tonight
The Devil's watching us and you can see his eyes so
bright

I'm beating myself into line
Choking on words of defeat
Ready to toss in the towel
The undertow claws at my feet

Believe in all the demons out to get you tonight
The Devil's watching us, you can see his eyes so bright
Believe in all the demons out to get you tonight
The Devil's watching us, you can see his eyes so bright
Out to getcha tonight
