All the lies you throw my way
covering a real reason
All the words you fake away
Committing all this treason

Force fed all your bullshit
Force fed all your bullshit
Force fed all your bullshit
Force fed all your bullshit

All that goddamn noise you speak
Comes out a slur of sound
Falling from high upon your peak
Closer to the truth on ground

Force fed all your bullshit
Force fed all your bullshit
Force fed all your bullshit
Force fed all your bullshit

force fed all your LIES
