All your lines
Planned out lies
Just like your minds
oh, why?
Laws and rules
punks and fools
use the tools
oh, cruel...

The roads lead us nowhere but down and out

Scales and skin
lines and pins
Draw me in
oh, why?
All your time
Down the line
it takes mine
oh, try...

The roads lead us nowhere but down and out
But why do they take us there?
The long hard road led us nowhere but down
And why did we follow where

Your boundaries
Imaginary
Just like your minds
oh, why?
Turns and cracks
Don't look back
Save the slack
oh, my...

The roads lead us nowhere but down and out
But why do they take us there?
The long hard road led us nowhere but down
And why did we follow where
