"Know Nothing"

All braun no brain no pain no gain
use my fist won't think and strain
beating you down is my only way
so brace yourself for the pain
Don't need thought just strong hands
to fuck you ass up with
I don't need no education
only a nice clenched fist

Know nothing
Know nothing
Don't give a fuck about logic or smarts
I just know nothing

Don't need peace just war and war
Gonna bomb you half to death
I wanna be the one that makes you fear
Wanna turn you into wreck
Hate and hate for stupid reasons
Beat you inside out
Gonna rip your fucking head off
Gonna tear your insides out

Know nothing
Know nothing
Don't give a fuck about logic or smarts
I just know nothing

Kill (x16)
