Well I believe in something else
learn to accept it or just shut your mouth
take your unaccepting ways
and shove them face first into your grave

Take your narrowed points of view
I'll shove them in the fire with you
Narrow brains and Jesus Christ
Scams for cash, fronts for heist

So just,
Take that shit away
No more today
I'm all okay don't need your pain

Trust in myself no not you
Lies you fed me tasted true
Sucking up to bitter gods
Stabbed to death with 12 inch prods

So just,
Take that faith away
No more today
I got my brain don't need your pain

So just,
Take that faith away
No more today
I got my brain don't need your pain
So just,
Take that shit away
No more today
I'm all okay don't need your pain
