Greed is the fuel for the new world fire
Selling your soul to grab your desire
Do anything for the sweet shiny prize
Fight your way up with back stabs and lies
Is it all in your eyes?
When your soul dies?

Greed, worth it to bleed
Need, to get some more
The root of all evils
Money, come be a whore

Shiny new diamonds for covetous fools
Your 5 figure fuckfest to use as tools
Skin and bones and piles of shit
You're not worth dirt, you're not worth spit
Is it all in your head?
When inside you're dead?

Greed, worth it to bleed
Need, to get some more
The root of all evils
Money, come be a whore

It's in your fucking blood
It's in your fucking brain
It's in your fucking smile
It's in your fucking pain

Greed, worth it to bleed
Need, to get some more
The root of all evils
Money, come be a whore
