"War is Born"

War is born
Earth is torn
the power corrupts
the mind destructs
We fuck ourselves up
and dig our own tombs
We sent ourselves
to our own dooms

War, its all they live for
War, its what we all died for

War is here
Feel the fear
heed the warning
see the mourning
we kill ourselves all
one by one by one
with everything we can
bombs, disease, and guns

War, its all they live for
War, its what we all died for
War, its all they live for
War, its what we all died for

War is BORN, Earth is TORN (x3)

War, its all they live for
War, its what we all died for
War, its all they live for
War, its what we all died for
