It's people like you
Make my skin crawl
It's scum like you
Make my hopes fall
It's liars like you
Make me sick
It's you
Goddammit

The world's full of your kind
The kind I most despise
People just like you,
full of hate, distrust, and lies

It's people like you
On the freak box tv
It's people like you
they run the fucking country
It's people like you
They tell me what to do
It's you
FUCK YOU!

The world's full of your kind
The kind I most despise
People just like you,
full of hate, distrust, and lies
The world's full of your type
just ignorant and brash
People just like you,
the lowest of the trash

They make me sick...

The world's full of your kind
The kind I most despise
People just like you,
full of hate, distrust, and lies
The world's full of your type
just ignorant and brash
People just like you,

the lowest of the trash
The world's full of your kind
The kind I most despise
People just like you,
full of hate, distrust, and lies
